winery/estate:

- Family-run winegrowing-estate in the heart of the Wonnegau/Rheinhessen.
- Nearly 1700 sun-hours allow it to grow wine even though there's just 550 mm rain per year, which is really little.
- Everyone in the family cares for his „department“ so that we can work together in a perfect way in the vineyards, the cellar and in sales.

philosophy:

We focus the traditional German grapes and want to show their potential in the Rheinhessian surroundings. Therefore we don't use Barriques, but mainly stainless steel tanks for the Whites and used oak barrels for the Reds. This is what we call: „Modern taste in Rheinhessian tradition“.
